

Section 1 – Setup Amazon Q Business

The screenshot shows the IAM Identity Center Groups page for the 'CareerCoaches' group. The left sidebar shows 'Managing instance QBusiness-SSO-Instance' and 'Application assignments'. The main content area displays 'General Information' for the 'CareerCoaches' group, which has 2 users assigned: 'career.coach.one' and 'career.coach.two'. Both users are listed with their display names, status (Enabled), and emails.

Username	Display name	Status	Email
career.coach.one	Career Coach One	Enabled	qbusiness@vocareum.com
career.coach.two	Career Coach Two	Enabled	qbusiness_2@vocareum.com

APPLICATION

The screenshot shows the 'CareerCoachApp' application interface. The left sidebar includes 'Recently used' items like 'CareerCoachApp' and 'Feedback'. The main area displays several AI-powered features:

- Recommendation by Coach**: Generating text as soon as Upload CV and Upload Job Profile are filled.
- Training Recommendation**: Generating text as soon as Upload Job Profile and Upload CV are filled.
- Schedule**: Generating text as soon as Upload CV and Upload Job Profile are filled.
- Skill Gap Analysis**: Generating text as soon as Upload Job Profile and Upload CV are filled.
- Upload CV**: Drag and drop to upload or Browse for files. File size limit is 50MB. File types: pdf, html, xml, xslt, md, csv, xls, xlsx, json, rtf, ppt, pptx, docx, txt.
- Upload Job Profile**: Drag and drop to upload or Browse for files. File size limit is 50MB. File types: pdf, html, xml, xslt, md, csv, xls, xlsx, json, rtf, ppt, pptx, docx, txt.
- Generate output**: A large button at the bottom.

Skill Gap Analysis Output card

Add card **Share** **⋮**

Upload Job Profile are filled

file and Upload CV are filled

Output **x**

Title Skill Gap Analysis

Prompt Type @ to reference a card
Analyze **Upload Job Profile** and **Upload CV** e and perform a skill gap analysis. Display output in a table format, and restrict it to 5 skills only

SYNC

The screenshot shows the Amazon Q Business Data sources page. A prominent message at the top states: "Sync started successfully at Nov 20, 2025, 7:23 AM GMT+3. Amazon Q Business is syncing the following data source: 'my-data-saurch'. It can take from a few minutes to a few hours. Sync speeds are limited by factors such as remote repository throughput and throttling, network bandwidth, and the size of documents." Below this, the "my-data-saurch" data source card displays the following details:

Name	Status	Last sync status
my-data-saurch	Active	-
Description	Type	Last sync time
-	S3V2	-
Data source ID	IAM role ARN	Current sync state
79a07cd7-c261-4477-8591-d8466fc43c0d	arn:aws:iam::669375921475:role/QBusinessDataRole	Syncing - crawling Syncing - indexing

Below the card are tabs for "Sync history", "Troubleshooting tools - new", "Settings", and "Tags". To the right, a sidebar asks "Was this content helpful?" with "Yes" and "No" buttons. A note says "This information isn't currently available." At the bottom, there are links for CloudShell, Feedback, and a footer with copyright and privacy information.

Access control

The screenshot shows the Amazon Q Business web interface. On the left is a sidebar with icons for Chat, Library, Apps, Feedback, Info, and Log out. The main area has a header "Career Coach Assistant" and a "Create Amazon Q App" button. A message from the AI says: "Where is the person live everyday". A response from the AI says: "I cannot complete this request as the response contains content that is blocked by your Admin. Please contact your Admin for help." Below this is a search bar with tabs for "Company knowledge" and "General knowledge", and a "Ask a followup question" input field. At the bottom, it says "Amazon Q Business uses generative AI. You may need to verify responses for accuracy. AWS Responsible AI Policy".

Blocked words

The screenshot shows the Amazon Q Business console at [admin-controls-global](https://us-west-2.console.aws.amazon.com/amazonq/business/applications/a4824b34-9064-423e-b9b8-a55d6ffc2502/admin-controls-global). The left sidebar includes sections for Enhancements (Data sources, Data accessors, Admin controls and guardrails, Amazon Q Apps, Amazon Q embedded, Integrations), Actions (Plugins, Response customization), and Insights (Amazon Q Business insights, Amazon Q App insights). The main area shows a green success message: "Successfully updated global controls". It has a "Feature settings" section with "Allow end users to upload files in chat content" (On) and "Allow end users of the web experience to create and use Amazon Q Apps" (On). Below is a "Blocked words (5)" section with a list: Gambling, Casino, Attack, Self-harm, and Hacking.
